Price of Wheat Will Be Set Early in September

H. W. Ross, president of the United Farmers of Alberta, and a member of the Canadian board of grain exporters on his return from a long sojourn in Ottawa, stated in the press that the price of 1917 wheat would not be fixed until the first few days of September. "It will be impossible to decide until after the American board has definitely decided its price and policy," said Mr. Ross. "Our action will be governed by what it does. The American board is now being invariably held up but I think without a doubt that it will announce its policy by September 1, after which we will take immediate action."

"I believe there will be quite a lot of sentimental objection to our being governed by action against the board, and I am prepared to say that the objectors will avoid nothing. There are reasons over which our board has no control that will make it necessary that we set a price very close to the price. I am not prepared to state what those reasons are, but every farmer can be fully assured that they exist and that they are conclusive."

Farmers' generally are expecting something over \$2 a bushel, and many of them claim that anything under \$2 will cause a loss. The American tentative price was named as \$1.65, but there was a storm of protest against it, and it is now believed that the American final contract will set its price around \$1.90 or \$2.

Meadow Creek Ripples

The Memorial Service which was held in memory of our heroes on Sunday at the school witnessed a very large attendance. Rev. Kidd and Rev. McNeira conducted the service. The 4th Canadian gun, a gun which was heavily reproduced, and at the conclusion Mr. La. Mett, of the Forest gave the bugle call. The audience seemed both to have been at the finish. The school was prettily decorated with flags and flowers, by the ladies. Even with the extra seats that were furnished many had to stand outside as all available space inside was in use. August 26th will be long remembered. A collection amounting to \$19 was given to the Red Cross funds.

Miss Laurel Penfold, of Calgary, is teaching school at Meadow Creek. Rev. Martin will conduct services next Sunday and hopes to see every one out.

Mr. A. J. Crawford has purchased a seven passenger four-cylinder Studebaker sedan and made it his first class car for an amateur driver.

Mr. Bowie had the misfortune to blow out a tire on his way home from church, and had to complete the trip on the rim.

Miss Grace Rossiter leaves this week to attend College in Calgary.

Mr. Cory Bow, of Lethbridge, was calling through this neighborhood, last week, selling Willis pianos. Mr. C. Crawford has purchased a new one and several other prospects are reported. It is also rumored that Mr. J. J. Vance has purchased a \$500.00 Player piano from the Willis Co. However we are not sure.

Mr. C. Hooper was married on Saturday, August 25th, at 11 a.m. in Macleod, and is now residing on the Lepier place which was formerly Bert Pule's homestead. Hearty congratulations are extended to the happy couple but we think we will have to hold a Chinese because they kept it so quiet.

A. Plano is something which is needed in every home where there are young people and the time for them to learn is when they are young. Miss Hart is a representative of the Willis Piano Co. and will furnish prices to anyone interested.

Miss Mabel Bell was home for a short vacation this week.

Miss Linda Houghton spent a few days with Mrs. Oliver.

Miss Hadden began at the end of the week for Plagelton. She will be missed by her many friends on the creek but she promises to come back next summer again.

The "Lion Lazer" has lost her job

now, and cream goes in the sugary case tapers.

Grasshoppers Plague In South

Southern Alberta is experiencing a plague of grasshoppers for which the warm weather seems to be responsible. The variety is the little native grasshopper and that they can do a lot of damage is evidenced by what they did in fifty acres of alfalfa on the Kerr farm near Lethbridge. It was stripped bare, nothing but the stalks being left standing.

Farmers are attempting to scare them away. One of the methods is a long rope with plenty of tin cans attached and dragged over the field by men mounted on horses. Some of the fields are too large to be sprayed and it is figured that the noise will be sufficient to frighten them away. Only alfalfa growers are complaining about the grasshoppers as the grain crops are not being bothered by them.

The United Grain Growers

On the first of September the Grain Growers' Grain Company Limited and the Alberta Farmers' Cooperative Elevator Company Limited will cross to exist in name, and the company formed by the amalgamation of these two will be the United Grain Growers Limited. The following were elected a board of directors to direct the affairs of the company: annual meeting is called: T. A. Cramer, C. Ross Jones, John Kennedy, R. McNeira, E. J. Collier, J. F. Reid, John Morrison, C. F. Brown, J. J. McMillan, R. A. Parker and P. S. Austin. The union gives farmers a company of their own with more than \$2,000 shareholders, over \$100,000 assets upwards of 300 country elevators, terminal elevators at Port William and Port Arthur with a capacity of over 1,000,000 bushels, ample meat and supply warehouses at Winnipeg, Regina and Calgary and live stock commission depots in Calgary, Edmonton and Winnipeg.

Start on Foundations

Of Big Flour Mill

Work is now under way in East Calgary preparing for the construction of the big mills of the Alberta Flour Mills, Limited. The structure will be one of the largest of its kind in the Dominion, and will cost when completed in the neighborhood of \$1,500,000.

Beatty-Perdue

An interesting wedding took place in Calgary last Monday, August 20th, when George Foster Beatty and Miss Mabel Perdue, both of Claresholm, were united in matrimonial bonds. Rev. Joseph Coulter was the officiating clergyman. The young couple will reside on the farm a few miles from Claresholm. Their many friends in the Stovely and Claresholm districts wish them every happiness.

The Flashlight

Despite the established fact that Porter Britton was found murdered in his mountain cabin by the sheriff, who had been summoned to investigate, it was established at the trial of Jack Lane, who had been arrested as the presumed murderer, that Porter Britton had not been murdered, was not even dead. This outlines the start and finish of the screen narrative, entitled "The Flashlight," to be told in Bluebird photoplays at the Rex theatre on Friday and Saturday August 31 September 1 with Dorothy Phillips, Lon Chaney and Win. Stowell leading a large company of skilled players. Between the extremes specified lies an engaging screen narrative told in stirring episodes and carrying a here story that will appeal with striking interest to devotees of the photoplay. The picture was photographed amid the rugged scenery of the Sierra Nevada, producing picturesque framing for many emotional scenes. That's a Bluebird in assurance in advance that "The Flashlight" will provide worth while entertainment.

YOUR BOY REPRESENTS THE FAMILY EVERYWHERE. HE GOES, AND HE GOES TO MANY PLACES WHERE YOU DON'T GO. DON'T YOU WANT THE FAMILY TO BE THOUGHT OF? YOU CAN'T DO IT IN WORK-OUT CLOTHES AND NEITHER CAN THE BOY. BOYS CLOTHES DON'T COST MUCH IN OUR AND IT WILL MAKE YOU MORE PROUD OF HIM. HIM MORE CONFIDENT OF HIMSELF AND STUDY BETTER IF HE IS WELL DRESSED. COME IN AND FIT YOUR BOY OUT IN THE HE CUGHT TO HAVE.

59,785 Autos in Active Service On The Prairies

Comparative figures issued for the three prairie provinces as to the number of automobile licenses issued shows the greatest increase during the last three years to be in Saskatchewan. Alberta comes next with Manitoba last, showing that people in the centre district have the most severe cases of speed mania of any of the prairie residents. Since 1915, the licenses issued in Saskatchewan are just 260 short of having trebled, and before the year is out, should show figures more than three times as great as 1915. Alberta is about 1,000 short of the three-times mark. Manitoba has not yet doubled its 1915 figures. The 1917 total for the three prairie provinces is 59,785. Here are the statistics to July—
1915. 1916. 1917.
Manitoba.....9,250 11,352 15,975
Saskatchewan.....9,197 13,549 27,822
Alberta.....5,825 9,211 15,469
The Calgary office has issued licenses for 200 motor cycles this year.

Saskatchewan's Yield

Regina, Aug. 25.—Reports from Saskatchewan Co-operative Elevator agents indicate that the wheat yield in the province will average 15 bushels to the acre. Harvesting is general throughout the southern and central portions of the province. Reports show that the oat yield will be low, many points estimating the yield at 10 to 25 bushels, and the highest is 40 to 45 bushels. Considerable damage is reported from local hailstorms.

Alberta Wool

Toronto, Aug. 27.—Southern Alberta shippers of wool to the government warehouse here have accepted the highest bid made last week of an average of 63.85c per pound, on their consignment of some 400,000 lbs. This figure is the highest ever obtained by western growers. Twenty members of the Southern Alberta Woolgrowers association shared in the shipment, and at prevailing prices the 1,000,000 lbs. grown by the association is valued at \$600,000 while the sheep owned by them at prevailing prices are worth \$2,500,000.

PROHIBITION IN B. C.

Prohibition comes into force in B. C. on October 1st. The question of compensation is under consideration. B. C. will do wisely to settle that question in the same way that it was settled in Alberta.

THE KAISER SMILED

It is reported that the Kaiser smiled when he was told of the anti-conscription meetings in Quebec. In his private estimate of the psychology of the various nations comprising the British Empire, his guess regarding the French Canadian was the only one that has proven correct.

CONSCRIPTION

The conscription bill has become law and will become operative at once. Within a week or two a proclamation will be issued calling all single men between 20 and 34 years of age to report. We expect little opposition to the law and all law-abiding citizens should assist in its enforcement.

COALITION CANDIDATES

Energetic action has been taken in Manitoba in favor of coalition conscription candidates in the 16 Manitoba seats and candidates are pledged to support only a man as premier who favors unqualifiedly the enforcement of conscription. Steps are being taken in the other western provinces to the same end. Whether the union government plan succeeds or not Liberals and Conservatives and Non-Partisans should get together and select the war candidate, who would take their seats without an election. We can well afford during the war to ignore political lines.

THE C.N.R. DEAL

There appears to be a lot more sound than sense to the protestations that have been made against the C. N. R. deal. It is so easy to gain a place when protesting against something "public money." It might not be very easy to prove that such has been done in the C. N. R. deal. It is hardly fair to make the statement when it is simply a question of a guarantee of bonds or of a grant of land which would have no value if the railway did not run through it. Much public money has doubtless been wasted on Canadian railways, but in the present case it seems illogical and unreasonable to protest against the establishment of a public tribunal to investigate and determine what is equitable. One thing we must remember is, that the war has had a great deal to do with the financial troubles of the C. N. R.

THE NON-PARTISAN

Some difference of opinion seems to exist among the members of the Non-Partisan League as to whether they can co-operate with the other political parties in electing a "Win the War" candidate unless the candidate be one of their own stripe. If they cannot, then the league brands itself as the most hide-bound partisan organization in Canada, and broad minded men would feel compelled to part company with it. Personally we believe the Non-Partisan movement is only a temporary organization which when it has delivered the world from the narrow partisan spirit will have had its day and completed its work. The fruits of its labors are already seen in the growing demand for a united national government. The members of the Non-Partisan League should now feel happy in having gained their objective and should be prepared to leave their past narrow partisanship for the broader and larger organization of a truly national non-partisan character.

THE CASE OF CONTRACTOR KELLY

The release of contractor Kelly, the millionaire thief, after having served only a few months of his sentence,

came as a surprise to those who thought we were approaching the day when equal justice would be meted out to rich and poor alike. Had he been a poor man and had the theft been a few dollars instead of away over a million, he would have stayed in jail until the last hour of his sentence had been served. Blame for this miscarriage of justice is placed upon Bob Rogers, who himself should have accompanied Kelly to the penitentiary. If the blame belongs, as some say, with Hon. Forbes, there is no wonder that there is so much opposition to his leadership. It is stated that Kelly was in poor health and was losing weight. We have never heard of a poor man being relieved of any portion of his just punishment for any such reason. We would like to know who it is that assumes the right to pardon public criminals because they are rich.

Your money will be well invested by subscribing now for your home paper.

W. C. T. U.

Beer and Nourishment

Mid-day statements of the hotel and kind have been circulated regarding beer, especially as to its nourishing powers, such as "The more beer brewed, the greater the supply of milk." "There is no waste in beer." "Beer is part of the strength of the body." Food in water made to come out of these statements is quite the following:

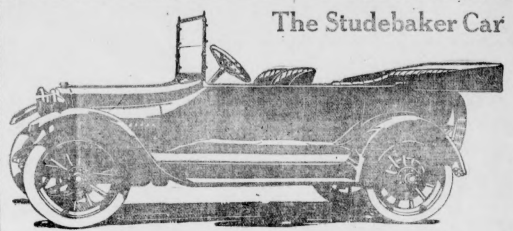

Ordinary Beer, Water about 1920 lbs., soluble about 14 lbs., alcohol about 30 lbs. "A nutritious food," says the advertisement, more accurate "a fluid containing a small percentage of nourishment, neutralized by the presence of a large percentage of alcohol."

"To obtain enough food from beer really to benefit the body, it would be necessary to take an extremely large quantity. For this reason, the food that might be done by the nourishing part of the beer would be more than counter-balanced by the harm done

by the alcohol contained in so large a quantity of beer." You would be hopelessly drunk before you were adequately nourished! The "Dwelling Trade Review" positively admits this when it says: "The greater part of the profit (in the barley) is gone to feed stock in the various the culture, and the yeast, the small remainder in beer feeding men?" In fact it may be stated with approximate accuracy that for every ounce of protein in beer there are ten ounces of pure alcohol, and that the thirty ounces of protein in a barrel of beer have therefore to contend with 300 ounces of alcohol.

The carbhydrate nourishment in beer is sufficiently indicated in its statement in Hutcheson's Food and Dietetics, "a pint of good ale contains as much carbohydrate as 1 1/2 pints of bread"—or half a wheel Nourishment, via beer, is therefore very dangerous and very costly.

Nor must it be forgotten that beer has its own grain by-products—starch, indigestible, domestic unwholesomeness, and social deterioration.

BUILT FOR CANADIAN ROADS

Studebaker Cars are designed and built to meet all the emergencies and difficulties of driving which motorists in Canada are sure to encounter.

Studebaker cars predominate in the eastern provinces, where style and appearance are the chief requisites.

Studebaker Cars have made good in the Prairie Provinces, where ability of a car to stand up under long, hard, continual service is the chief requirement.

And Studebaker Cars have proven satisfactory in service in the mountains, where endurance and grade conquering powers are the chief requisites.

That Studebaker cars are made with the built-in stability that such a car requires in order to give the best service on Canadian roads.

Come in and see the new Series 1 models.

Stavely News

H. Baggett has sold his day business to Mr. Stroud & Son.

Harvest is in full swing and promises to yield on an average of about 30 bushels and a good sample.

One of our local celebrities was on the carpet this week for irregular manipulations of a punch board.

Mr. D. Bell is the new teller in the Bank of Commerce, replacing Mr. Chad, who has been promoted.

Mr. Alex Allan has come from Champion, to help his brother in the increasing business of the store here.

Mr. Gordon McLean says the demand for the McLaughlin auto is far ahead of the supply.

Rev. Mrs. Kidd and family, Clareholm, visited Mrs. Reid at the manse last week.

Our correspondent was in error in reporting on the Stampede in last week's issue. J. J. was not rode in stampede style, as young Campbell rode her by permission of the owner, Mr. Orr, with a specially built saddle with built up bucking rods, and was allowed to hold the halter rope as he wished. This is not intended to detract from any credit to Campbell as he was certainly the best rider of the day.

We are glad to see all our esteemed staff of school teachers back again.

Harvesting is in full swing around here and no "mootless days" among the men in the harvest fields, working from daylight to dawn.

School opens on Tuesday, September 4th, with the full staff of last term's teachers and a full attendance of scholars.

At a recent meeting of the curling club it was decided to build a good curling rink on the property recently acquired by the club, plans are being prepared and tenders will be called for shortly that the building may be completed in plenty of time to take advantage of the first frost.

Mrs. A. Ren, visited Mr. Ren in Calgary on Saturday and Sunday. Mr. Ren was operated on for appendicitis and we are pleased to be able to report that he is recovering rapidly.

A garden party is announced for Wednesday, September 4th, at the residence of Mr. R. A. Hopkins, with a hearty invitation for all to come, afternoon and evening. Ice cream and music, and a good time.

Lester Haynes and Johnson Myers took part in the Calgary ball tournament last week. Slim won his game pitching for Vulcan against Calgary by a score of 20 to 5. Myers pitched for Clareholm, also pitched a good game in the finals against Vulcan, but his leg had to take second place, Vulcan winning the series.

W. Cochran, of Clareholm, is a frequent visitor in town this week, looking after the Alberta Pacific Grain Co's Elevator, in the absence of Archie Ren, who is in the hospital in Calgary.

Rev. W. M. Reid has been appointed moderator of Presbytery for this district, Granum to Okotoks, and Potlatch to Vulcan, and has started a campaign among the people, with a desire to interest them in the work of the church. He is meeting with success.

Messrs. Sutton & Chasen have started a boarding house, and are prepared to give meals by the day or week.

The Local Patriotic Committee are to be congratulated on their success in making an engagement with Boris Hainboing Concert Co., to appear in the Stavely Opera House on Saturday evening, September 5th, as it is rarely the good fortune of cities like Stavely to be able to make arrangements with as high class, world renowned artists as these, to appear in their midst, and had it not been for Patriotic purposes, this district would not have been afforded the opportunity of a life time to enjoy this talent in their hometown. We hope the energy of the committee will be appreciated and that everyone will make it a point to be present on above date.

Granum Items

Born To Mr. and Mrs. Paul Clarke a daughter, Sunday, August 29th.

Mr. F. Johnson purchased a McLaughlin car last Saturday.

Mr. and Mrs. Kiock, of Vancouver, are visiting Mr. and Mrs. Wm. Thompson south west of Granum.

Mrs. Redland, of Calgary, is visiting Rev. R. J. McInnis, and wife, at their home in Granum.

Mr. T. Cochlin had the misfortune, last Saturday, of falling and breaking his arm.

Mr. and Mrs. Jim Cunningham motored to Granum from Lethbridge, last Sunday.

Mr. Scott Peebles has his brother visiting with him for a short time.

Mrs. E. H. Seaman and two children were visitors in Calgary, on Thursday, August 23rd.

Mrs. P. Vanderpoort was a passenger on the north bound train on Thursday morning, August 23rd.

The Granum News will send a year's subscription to any soldier in the trenches for \$1.00.

Mr. Frank Kellett sold his threshing outfit last Monday to parties living east of town.

A slight frost on Monday morning, tipped the potatoes in places but did not damage the wheat.

Monday last wheat cutting began in Granum district. A number of the fields were cut last week.

Mr. and Mrs. J. Long entertained a few of their friends at a delightful card party on Friday evening August 24th at their home in Granum.

Mr. Angus Denech and family have spent several weeks visiting in the States returned to Granum Friday 24th.

The sale of canned corn, peas and tomatoes will be prohibited, also all extracts will be sold only by druggists in the near future.

Mr. and Mrs. Harry Harrison from Redlaw, Alberta, are visiting with Mr. and Mrs. J. C. Brown and family. Mrs. Harrison is a daughter of Mr. and Mrs. Brown.

Last Friday night a C. P. R. freight train ran into two cows before coming into town from the north. One animal was killed instantly, the other was so badly hurt she had to be shot. Mr. T. Cochlin and Dr. Dan McMillan were the owners of the beasts.

Mr. Bert Nichols and wife returned from Calgary, Thursday, August 22nd. Mrs. Nichols while in Calgary had her tonsils removed. Mr. Nichols was at the trial of the Edmonds case of day while in Calgary, and says it was quite interesting to watch these strange men. No doubt many of us would like to have witnessed this trial as it is the first to come before any judge in a white man's land, and perhaps the last.

Mr. Jas. Blair and family returned the first of the week from a two weeks' visit to Banff.

Miss L. Lindsay, from Lethbridge, was in Granum, Monday evening, between trains, visiting with Mrs. D. M. Leyden.

We are pleased to be able to report that Mr. Bermingham, who has been so ill for the past few weeks, is very much improved.

Leonard Rexford, Harold Haines, Allan Ellis and Angus McDonald returned on Monday last from a very enjoyable trip to Banff. The boys motored all the way.

A man who believes in the old saying, "See a pin and pick it up, and all that day you'll have good luck," saw a pin in front of the postoffice the other day. Bending down to get it, he had tumbled off and rolled into the gutter, his eye-glasses fell and broke on the pavement, his suspenders gave way behind, he lost the buttonhole on the back of his shirt collar and he all but lost his new front teeth. He got the pin.

Married Three Birds

The wife of a Methodist minister in West Virginia has been married three times. Her maiden name was Partidge, her first husband was named Robins, her second husband Spurns and the present Quill. There are two young Robins, one Spurns and three Quills in the family. One Grand Father was a Spurns and another a day later's dead now and a young one. Paradise Time live on Hawk avenue, Engleville, Ontario Island, and the fellow who wrote this is a Lyne and a member of the family. — Ex.

Will YOU Give 3½ Cents a Day to Keep

A Child From Starving?

If you will, read this appeal carefully then decide what share you will take in helping avert the greatest tragedy of all time.

1,250,000 CHILDREN ARE FACING SEVERE STARVATION IN BELGIUM TODAY.

The Belgian Relief Commission has not the means to supply these growing children with the food that is necessary. THE SITUATION IS SERIOUS. This great relief fund has largely been administered through Americans; the break between the States and Germany has brought about a crisis; there is more need of funds now than at any previous time.

THE GREAT RELIEF WORK MUST AND WILL GO ON. WE MUST DO OUR SHARE.

At the present time the growing child in Belgium receives only a "hunk of bread and a bowl of soup" each day. It is not enough; they must have more—or starve.

For 3½ cents a day the Relief Commission can supply one child with an extra "meal" of a biscuit made with sugar and a cup of cocoa, not much, but it is the difference between life and death, between health and disease, for the children of heroic Belgium.

ALBERTA HAS BEEN BLESSED WITH TWO RECORD-BREAKING CROPS.

We are prosperous—the future looks bright—we are in a position to help. How many starving children can you look after? How many will we look after?

HOW MANY WILL YOU FEED?
\$12.00 a year, the price the Alberta farmer received for eight bushels of his wheat, will give this extra "meal" to one child for a whole year. 10¢ a day or \$36.00 a year will keep three children from starvation. \$60.00 a year will feed five; \$120.00 a year will feed 10.

WERE YOU EVER HUNGRY?

Can you picture starvation, the pinched faces, the piteous cries?

IF THE CHILDREN WERE STARVING IN ALBERTA you would help—

YOU WILL HELP IN THIS CASE

You can't pass by the children's cry for food from starving Belgium? AND YOU MUST ACT NOW

The thought that you are feeding some of these unfortunates each day will bring you happiness. Think of the eager little hands reaching for the meal you supply.

Your own meals will taste sweeter when you do your share. The paper in which you are reading this is doing its share by publishing this appeal without charge—WHAT WILL YOU DO?

You may send contributions by the week, month, or in one lump sum. You are ASSURED that your money is used for the purpose it is sent.

THERE ARE HUNGRY CHILDREN AWAITING YOUR DECISION. HOW MANY WILL YOU FEED?

Send cheques payable to—

Belgian Relief Fund

Chinook Gossip

Fordham Erdman will know in the neighborhood is among the lucky ones to be drafted for the European conflict in the States, or is it exclusively ones.

A large crowd attended the dinner at Billy Hester's last Friday night and a good time was the result.

St. John's returned to Banff last Saturday for treatment.

Mr. Finch, a one time rancher of the Porcupine Hills, returned from a visit to North Dakota a few days ago. He reports the crops very poor there. He also stated that while he was there a tornado passed through the country of LaMoen and Ransom, doing thousands of dollars worth of damage.

Luther Crossen bought a half section of land from Mr. Sheffield at \$10 per acre, a few days ago.

Albert young sold a quarter of land to Nels Nelson a week ago Wednesday for \$4,500 cash.

Mr. and Mrs. Harrison, of Redway, spent a few days visiting at the home of J. C. Brown's last week.

Joe Bally expects to undergo the amputation of a rib soon. Good luck to you, Joe.

Clyde Marsh finished moving his implements to the new farm a few days ago. Clyde says a person does not know what he has until he comes to move.

A. W. Dersch and family returned from their extensive visit in the States last Saturday, having been through Montana, N. Dakota and Minnesota, ending in Saskatchewan. August says that a person has got to come home to get a good sleep, as the people all appear to be too industrious to allow a person much rest.

Bert Clark added another little building to his farm which looks like a granary but it may be a barn.

Earl Sherman fed a horse and broke him in a few days ago.

Considerable commotion was caused among L. Audett's harvesters last Saturday when two teams ran away with the binders doing considerable damage.

The Immortal Cowards

By HERBERT KAUFMAN
We are the Cowards Immortal—the men who feared dishonor and who quailed at shame.

Because we respected self more than life and dreaded degradation more than death, our names are flung to the winds.

We saw the whip the Persian hand for Greece, and therefore did not cringe to see his million spears. And every Alpine pass has heard our trembling prayers beseech kind God for strength to perish if we might not hold our mountains clean for freedom.

Had we not peered beside our women as the Turk set forth to sweep the West, we would have failed to beat him back. No woman that sweeps brings could make a torture comparable to their debasement.

And at Waterloo, where retreat demanded all our pride, we chose the path to glory and blessed the bayonets in our looking hearts.

From Canada and from the Alps we call to you, from Valley Forge and from Balaclava, from the wastes and the wilds and the frontier blockades and from every grave that marks a martyrdom, we cry to you, but—duty—cry on!

The price of liberty is dear, but liberty is more precious than its dearest price.

For God and conscience and humiliation and torture and defeat—serve your faith with valor, and defend the high faiths of Humanity.

From August, 1917, Cosmopolitan.

The children of Belgium are crying for food. Serbia has been overrun by the enemy. Half of Roumania is occupied. Much of France is laid waste. Ten millions of the world are on the march. Sixty million men are withdrawn from production for war service.

To feed the allied armies and nations, the men and women of Canada must pledge themselves to maximum production, the elimination of waste, and the largest possible consumption of perishable food-stuffs. Says Hon. W. J. Hanna, Canadian Food Controller.

Letter From France

PARIS, 22nd July, 1917

DEAR MR. WEST:—Since writing from Paris I have had a few experiences of the time variety.

We sailed for Havre and spent two days in a rest camp there after which we went to Flanders and have spent all our time since then around the same spot about two miles square.

The military situation of four companies and each went in a different direction. I am attached to No. 2 company and although I have been all over the track we are responsible for. I have not seen any of the other company men since we started work.

Nothing very exciting has taken place where I have been. We were camped about ten miles from the line and a feeling of security prevails. The camp is at the railroad, the terminus of the canal and the beginning of the narrow gauge. From here a perfect net work of light railways has been completed and goes right up to the support lines. An advance was made here and an extension was put down, our company laying the steel. The grade was made by Imperial labor battalions. At this point we were about two miles to eighteen hundred yards behind the front line and considering the target we must have provided for shell fire our casualties were insignificant. A few cases of shell shock were reported. One was very bad. An officer and the company's Sgt. Major were in England with broken ankles. The S.M. got his from jumping from a moving train. The Lt.'s is the result of a shell fragment.

A fellow, Remison, with whom I was rather friendly has been fortunate enough to get a transfer into the 10th battalion, and I am working hard to join him. If this fall I am going to apply for a commission in the Imperials. So you may get a blue paper to fill out in connection with my character in the course of the next few weeks. Working on railways is all right for those who like it, but I don't and further I feel I could do of greater service in the infantry where I know something about the work in hand.

My brother was killed on the 26th of April near Arras. This was about the time the Canadians took Vimy Ridge and I have been told that a Scottish division was on one of their flanks. He had only been here four months.

The country is pretty, lots of trees and on the roads one village seems to begin where the other ends. But there are in awful shape. In one particular town which has been fighting a lot in the press in connection with an advance there is scarcely a house intact. There isn't a wall window and the heaps of debris show what was once the site of a row of houses. Labor battalions have had to clear debris away in order to make a road way through the town.

There was a cathedral and a famous hall in the square and with the exception of a small corner tower of the cathedral one might as well say they are razed to the ground.

A few nights ago we had the surprise of our lives. Fritz started shelling in the direction of our camp. I suppose his objective was the railroad and tanks. One went away past us, and burst in a field. The next one went to the left but putter good for range, the next one dropped shot and just missed the road. Meanwhile the wind was up in camp, and a sergeant shouted everybody scatter. We did not move until things had quieted again. This was just what Fritz expected evidently for we had settled down for more than a few minutes before another light explosive came over followed by a sharp rattle. I was busy writing outside the tent and some of the earth came my way. One fellow was making a son out of a shell case when the last one went off; he carried on so fragment caught him on the shoulder but did not harm, except for the slight damage to crops. I haven't heard of any casualties of the evening's bombardment.

Air battles are very common and it is very interesting to watch the aero planes circle over followed by a sharp rattle. These battles take place at a great height and the participants look like mere specks in space. The anti-aircraft guns blaze away but seldom being of serious observation, as much as they were.

A few weeks ago we had a day off so two of us started on a walk and

MRS. EATON, A Returned Missionary From India, with

"Little Sheelu"

a 10-yr. old Hindu child widow—has been a widow since 5 years of age, will speak

Modern Barns
There's style to barn building as well as to home building. The modern up-to-date barn provides many conveniences and improvements that make your work easier and your life stock safer. In addition, the proper kind of a barn gives you a better standing among your neighbors as a live, progressive farmer. It's reputation that counts.

POULTRY HOUSES AND SHEDS
No matter what kind of a building you need, or whether its farm or town, we can be of service to you. We have plans for all kinds of buildings and all the necessary material to make them. Our prices are just as low as possible consistent with quality.

were going to go and keep on going until turned back.

We walked all afternoon and got as far as the support lines. They had recently been Fritz's fourth line. There was a tank in front of us and we took it in as a matter of course. It was Hors de combat for good too. I'm afraid a direct hit had caught it while in difficulties and the contrivances which supplies its means of locomotion was stretched on the ground. It had been on the ground for some time. I took pictures of them but disappointingly small, carrying a crop of say ten men. They must be very cramped; the centre is all engine.

What do you think of conception? The papers here are full of demands for reprisals but I don't think they will carry much weight. After all it sounds too much like I'll kick your head because you kick mine. These automobiles are carried out on very extensive scale there is no military action as in them.

My age here paper D. Tennant 856-22, No. 2 Company, 8th C.R. France.

My regards to Mrs. West and to anyone who may care to hear of me.

Yours sincerely,
D. TENNANT

The Foothills Lumber Co.

W. H. Oddy, of The Foothills Lumber Company, wishes to announce that he will, within a few days, be prepared to supply farmers with lumber at a little better than half the present retail prices.

Next week the mill will be in operation in full swing. Lots of the very best quality are on hand. The road to the mill is in good condition. If those needing lumber will make a trip trip they will be so pleased with the value received that they will come again.

DECLINED \$7,500 SALARY TO SERVE PUBLIC FREE

MR. JOHN G. KENT, a man of wealth and extensive business interests, who has refused to accept any remuneration whatever for his services as General Manager of the Canadian National Exhibition, preferring to serve the public free of charge. He is President of the Toronto Board of Trade and has been on the Exhibition Board since 1909, always showing a close interest in the work. He was President in 1912-13, the two best years in the history of the institution. Mr. Kent is head of the Boy Scouts in Toronto and is identified with many philanthropic enterprises. Long and continued business has compelled Mr. Kent, since 1905, to seek a long rest.
